DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:

Claims 1-6 and 12-16 are allowed because the prior art of record does not disclose nor sufficiently suggest a system for controlling distribution of video information over a network as disclosed by applicant, in which coding means encode a video source signal based on performance level messages and error status messages that are received from a data terminal, the coding means inserts intraframes into a sequence of coded interframes at a regular interval, a data terminal monitors the performance of the terminal and the error status for the terminal, the terminal is configured to selectively decode a portion of the intracoded frames when the performance level monitoring means or error status monitoring means detects an intolerable situation.

Claims 1-6 and 12-16 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

U.S. Patent 6,014,694 to Aharoni : System for Adaptive Video/Audio Transport Over a Network.

U.S. Patent 6,483,878 to Yonezawa: Video Communication System, Video Communication Processing Method and Storage Medium Thereof.
